

## **Fleet Mechanic**

A Pike Fleet Mechanic applicant maintains and repairs equipment and vehicles involving mechanic, hydraulics, diesel, pneumatic and electrical systems, ensuring that equipment and vehicles operate effectively, efficiently and safely. Some work may be physically demanding, outdoors, in all types of weather – and some travel may be required.

A Fleet Mechanic applicant must meet the following minimum requirements:

- At least 3 years experience in mechanical, hydraulic, diesel, pneumatic and electrical repairs involving complex equipment and vehicles
- The ability to diagnose complex mechanical problems
- The ability to perform duties in unprotected weather elements
- The skills to perform all duties required on vehicles assigned to operate
- A valid driver's license
- Good working knowledge of Company safety rules and practices
- High school diploma or GED
