

Groundman

A Pike Groundman is an entry level position. A Groundman works on crews, primarily in our Distribution and Transmission regions ([see map](#)) although storm restoration also may require work in additional East and Midwest regions. Work is physically demanding, outdoors, in all types of weather – and there’s typically quite a bit of travel. You may be required to work at heights or in confined spaces.

Pike Groundman applicants must meet the following minimum requirements:

- 18 years of age
- No experience necessary
- Self-motivated
- Desire to learn and advance
- Willing to perform arduous physical labor
- Able to obtain a Commercial Driver’s License
- U. S. Citizen or possess the legal right to work in the U. S.
